PRODUCT SHEET

PHOTO BACKDROPS

JVI prints standard and custom size backdrops from your supplied files with high resolution, crisp 8-Color printing (1st in the USA), in large sizes and without seams. The photography industry needs backdrops that are vibrant, wrinkle resistant and easy to work with. Old seamless backdrops tore and didn't last, vinyl backdrops had an ugly glare, canvas wrinkled. JVI backdrops are a perfect fit for most all photo studios: children's photography, fine art, pre-school, senior portraits, weddings, sports and commercial photography. We have standard sizes and have custom solutions available.

See the next page for our standard sizes, fabrics and finishing.
